## OUR MISSION

We are a Project & Quality Solutions (PQS) Firm dedicated to providing highly skilled professionals that support the companies we represent.

Our typical clients represent established businesses with large-scale construction and fabrication projects that require advanced technical skill in Project Management and Quality services in support of project completion.

Our experienced and advanced team is made up of industry professionals in the Aerospace, Bridge, Hydroelectric, Oil/Gas & Nuclear industries.

We have an established reputation with our clients as a Project & Quality Solutions Firm that prides itself on the dedicated work and quick turn-around times which are met consistently by our highly trained and motivated staff of professionals.

We insist on excellence by completing our projects in accordance with contractual specifications within budgetary constraints.

If your company requires immediate staffing solutions PQS can help.

We specialize in Project Management and Quality services needed to make your project a success at any stage.

In addition to Project Management & Quality Services, we also offer training and certification designed for individuals desiring a career in the field of Project Management, Quality Assurance and Nondestructive Testing.

Our foundations are based on the principles of Excellent Services, Expert Craftsmanship, Respect for our Business Partners and operational integrity.
