

Project + Quality Solutions Selects New CEO

Portland, OR, Release: September 28, 2019. *For Immediate Release*

PQS is excited to announce the appointment of Nate Lindell as Partner and CEO, effective immediately. Nate previously held the position of Director of Quality for Vigor Works based in Clackamas, Oregon.

“During this time of growth, there is no better person to lead PQS than Nate Lindell,” said Sang Vu, PQS Founder. “Nate is a proven leader with decades of industry experience in fabrication, quality, business vision and a passion for industry and personal development.”

Nate combines his international business experience and executive leadership, having implemented and overseen Quality Management Systems for some of the largest fabrication firms domestically as well as internationally. His dedication to industry includes active involvement on multiple technical committees including the American Welding Society (AWS) Technical Committees; Bridge Welding, Structural Steel Welding, Inspection as well as past Chairman of the Reinforcing Steel Committee. He is also an active participant on the American Institute of Steel Construction (AISC) Structural Stainless Steel Committee and Chairman of the Hydraulic Metal Structures Committee. Locally, Nate serves on multiple community colleges nondestructive testing program advisory boards.

“I am honored to join a growing, vibrant team of professionals. It is a privilege to be part of an organization that delivers high quality services and innovative solutions to world class clients,” said Nate. “Our mission is to partner with our customers by providing highly skilled and ethical technical professionals that positively impact the success of their projects. To continually grow our business through these partnerships and create a healthy work environment based on leadership, integrity, trust and dedication to industry.”

In his role at PQS, Nate will be responsible for leading the company’s short and long-term strategies, expansion opportunities, industry developments and the growth required to meet the needs of clients.

PQS provides clients with experienced professionals to the aerospace, hydroelectric, infrastructure, nuclear and oil & gas industries. Services include; project management, engineering, nondestructive testing, quality assurance, quality control and expert witness supporting construction and fabrication mediation and claim litigation.
